New Mexico Recipes

Traditional New Mexican foods offer a wide variety of choices that can fit nicely in a meal plan for someone with diabetes. Some challenges exist with popular New Mexican foods, however.

Many are high in both fat and carbohydrate. Decreasing the fat in New Mexican foods is usually as simple as using less oil or fat in preparing the food, using lean meats and using less cheese. This can usually be accomplished without compromising flavor. Sometimes the lower fat versions even taste better because they are less heavy.

Although some New Mexican foods tend to be high in carbohydrate, it is important not to eliminate these foods, but rather to try and eat these in moderate amounts. Traditional New Mexican high-carbohydrate foods such as corn tortillas, beans and potatoes are good sources of fiber and other nutrients. These types of foods can be a healthful part of the daily diet when eaten in moderation.

To keep overall carbohydrates at an appropriate level, balance foods higher in carbohydrate with low carbohydrate choices, such as non-starchy vegetables. Vegetable dishes highlighted in these recipes focus on traditional New Mexican vegetables that are low in carbohydrate. These include squash, chile, quelites, nopales, cabbage slaw and jicama. Green salads, while not included in these recipes, also complement New Mexican foods.

Recipes in this book include both traditional New Mexican dishes as well as some favorites of New Mexico State University Extension home economists.

Recetas de Nuevo México

Los platillos tradicionales de Nuevo México ofrecen una amplia variedad de opciones que se pueden acomodar fácilmente en un plan de comidas para alguien que tiene diabetes. Sin embargo, existen algunos retos con platillos populares nuyomexicanos. Muchos de estos son altos en grasa y carbohidrato.

Reducir la grasa en platillos nuyomexicanos es, por lo general, tan sencillo como usar menos aceite o grasa en la preparación del platillo, usar carnes con menos grasa y usar menos queso. Esto se puede hacer casi siempre sin perder el sabor del platillo. A veces las versiones bajas en grasa saben mejor porque no son platillos tan pesados.

Aunque algunos alimentos de Nuevo México tienden a ser altos en carbohidrato, es importante no eliminar estos alimentos, sino intentar comerlos en cantidades moderadas. Los alimentos tradicionales nuyomexicanos altos en carbohidrato (como las tortillas de maíz, los frijoles y las papas) son excelentes fuentes de fibra y otros nutrientes. Estos tipos de alimentos pueden formar una saludable parte de la dieta diaria cuando se comen con moderación.

Para mantener el carbohidrato en total a un nivel apropiado, es necesario balancear los alimentos más altos en carbohidrato con selecciones bajas en carbohidrato, como verduras sin mucho almidón. Los platillos de verduras que se destacan en estas recetas hacen énfasis en las verduras tradicionales nuyomexicanos que son bajas en carbohidrato. Entre estas se incluyen las calabacitas, el chile, los quelites, los nopales, la ensalada de repollo y la jícama. Las ensaladas verdes, mientras que no se han incluido entre estas recetas, también son complementos excelentes para los platillos de Nuevo México.

Este libro incluye recetas tradicionales de los platillos nuyomexicanos así como algunos de los platillos favoritos del Servicio de Extensión de la Universidad Estatal de Nuevo México.

Beef with Green Chile

Yields 6 servings, each one equal to 2/3 cup

- 1½ pounds lean beef (such as sirloin)
- 2 cups diced green chile (roasted and peeled, fresh or frozen)
- ¾ cup chopped onion
- 2 cloves garlic, minced
- ½ teaspoon salt
- 1 tablespoon cornstarch

1. Cut beef into chunks or strips.
2. Add all ingredients except cornstarch.
3. Simmer, covered, for about ½ hour. You may need to add a little water so mixture simmers well. (Don't add too much water or mixture will get soupy.)
4. Add cornstarch to small amount of water to make a smooth paste. Add to meat mixture and stir.
5. Cook until cornstarch thickens (about 5 more minutes).

Note: This dish can be served as an entrée or as a burrito filling. When you buy flour tortillas for burritos, choose those that are thinner or smaller, because they have fewer calories and carbohydrate.

Carne de res con chile verde

Rinde 6 porciones, de ⅓ de taza cada una

- 1½ libras de carne de res sin mucho gordo (como sirloin)
- 2 tazas de chiles verdes picados (rostizados y pelados, frescos o congelados)
- ¾ de taza de cebolla picada
- 2 dientes de ajo, picados finitos
- ½ cucharadita de sal
- 1 cucharada de almidón de maíz (*cornstarch*, en inglés)

1. Corte la carne en cubos o tiras.
2. Agregue todos los ingredientes menos el almidón de maíz.
3. Hierva a fuego lento, cubierto, durante aproximadamente ½ hora. Es posible que necesite agregar un poco de agua para que la mezcla hierva bien. (No agregue demasiada agua ya que la mezcla se pondrá aguada.)
4. Agregue el almidón de maíz a una pequeña cantidad de agua para formar una pasta sin grumos. Agregue a la mezcla de carne y revuelva.
5. Cocine hasta que el almidón espese (aproximadamente 5 minutos más).

Nota: Puede usarse como platillo principal de carne o como relleno para burritos. Cuando compre tortillas de harina para burritos, escoja las delgadas o chicas ya que tienen menos calorías y carbohidrato.

Red Enchiladas

Yields 6 servings

10 dried red chile pods
 3 cups water
 1 tablespoon olive oil
 ¼ cup flour

 ½ teaspoon oregano
 2 cloves garlic, minced
 8 corn tortillas
 2 cups cooked extra-lean hamburger, pork or chicken
 (optional)
 1 cup grated sharp cheddar cheese

1. Toast the chiles in an oven at 200°F for 5 to 10 minutes. Stir frequently so they do not burn. Remove the seeds and stems.
2. Put the chiles and 3 cups of water into a medium pan. Simmer for 15 minutes.
3. Put half the chiles with some of the cooking water into a blender. Puree and then strain. Discard the peels and seeds. Repeat with the other half of the chiles.

6. Add salt, oregano and garlic. Simmer for 15 minutes.

Enchiladas de chile colorado

Rinde 6 porciones

- 10 chiles colorados secos
 3 tazas de agua
 1 cucharada de aceite de oliva
 ¼ de taza de harina
 1 taza de agua
 1 cucharadita de sal
 ½ cucharadita de orégano
 2 dientes de ajo, picados finitos

 1 taza de queso rallado tipo *sharp cheddar*

2. Ponga los chiles y tres tazas de agua en un sartén mediano. Cocine a fuego lento durante 15 minutos.
3. Ponga la mitad de los chiles con un poco del líquido de cocción en la licuadora. Licue y cuele. Deseche la cáscara y las semillas del chile. Repita con la otra mitad de los chiles.
4. Caliente el aceite en un sartén mediano. Agregue la harina y dore durante un minuto.
5. Agregue el chile, el resto del líquido de cocción y una taza de agua adicional.

8. Rocíe el queso rallado sobre las enchiladas. Cubra el sartén y cocine hasta que el queso se haya derretido. Sirva inmediatamente.

Nota: Para una salsa rápida, use puré de chile colorado congelado en vez de chiles en agua. Descongele los chiles y siga los pasos 4 a 8 de la receta.
